Vacancy Announcement: IT Solutions Developer
Local Consultant SSA-9

Vacancy Announcement No: WFP LAO 020	Date: 15 September 2017
Title: IT Solution Developer	Duty Station: Vientiane
Grade: SSA-9	Contract Type: **Special Service Agreement for initial 3 months**
Organization Unit: IT unit	Deadline for application: **21 September 2017**

WFP intends to build a digital platform for connecting different data sources, including primary programmatic and monitoring data and linkages with numeric data from secondary sources, in order to have standard reports and progress data readily available through a dashboard. It will also need to be linked to mapping apps in order to be able 'zoom' in to specific locations and have pop-out data on pertinent indicators.

Hence, WFP Lao is looking for a local consultancy who can takes responsibility for:
- overall IT project from planning, development, and delivery, and specifically;-
- Create a visual dashboard, which would connect to data sources from different internal and external databases;
- Provide technical evaluation, support and advice during the testing, evaluation and potential scaling phases of the project;
- Perform other related duties as required.

Critical Success Factors:
- Demonstrated use of specialized expertise in developing and supporting systems, dashboards and/or data debases;
- Demonstrated experience of HTML, PHP, ASP, CSS, Java and MySQL, Oracle, SQL servers;
- Communicate effectively orally in English and Lao;
- Ability to design, develop, test, implement and maintain information structures and applications;
- Ability to propose creative approaches for issue resolution.
- Ability to provide guidance and where required support staff;

Education:
University degree or equivalent, experience in computer science and information systems is essential.

Experience and skill:
At least five years of professional programming experience in the planning, design, development, implementation and maintenance of computer information systems or related area;
Demonstrated use of specialized expertise in developing and/or supporting systems and applications, data and databases
Proven effective, hands-on software creation/adaptation experience, preferably in an international environment.

Application Submission
